

# Power Plants Overview

Country

All

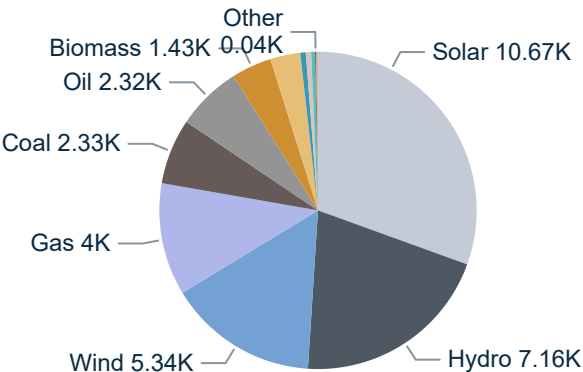

China (955,718 MW )  
Country with Highest Coal Capacity

United States of America (546,436 MW )  
Country with Highest Gas Capacity

China (259,026 MW )  
Country with Highest Hydro Capacity

United States of America (104,233 MW )  
Country with Highest Nuclear Capacity

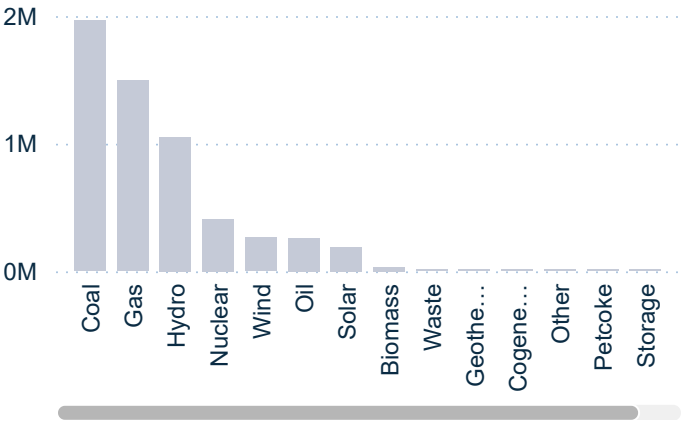

Countries by Primary Fuel

Countries and their Primary Fuel
